CABLE STATIONS

EVOST III

DHZ CABLE STATIONS EVOST III SERIES

Cable stations are a must in every fitness club because they offer very flexible training options and an even training weight throughout the entire movement sequence.

Consequently, it's not surprising that cable stations are the centrepiece of many studios and prove to be an excellent investment due to the high degree of utilisation in the studio. With 9 ready-made configurations, the new series offers the possibility of designing ergonomic solutions, especially in difficult, angled rooms or rooms with columns.

THE FACTS

- ✓ 9 READY-MADE CONFIGURATIONS
- ✓ UNLIMITED NUMBER OF CONFIGURATIONS ACCORDING TO CUSTOMER REQUIREMENTS
- ✓ FLEXIBLE SYSTEM: FUNCTIONALITIES CAN BE MOUNTED AT ANY POSITION ON THE TOWER
- ✓ NEW SHORT CONNECTIONS
- ✓ NEW 45° ANGLED CONNECTIONS
- ✓ ADDITIONAL WEIGHT 1.25 KG AND 2.5 KG
- ✓ HANDLES FOR MANY EXERCISES
- ✓ ADDITIONAL WALL AS A VARIABLY CUSTOMISABLE, CLEARLY ARRANGED GRIP RACK

THE BENEFITS

Additionally, its innovative product design allows for flexible system configuration, enabling every functionality in a four-tower setup to be variably positioned in any location.

DHZ also offers innovative connection solutions, which means that "short" connections (narrow cable run) or "diagonal" connections at a 45° angle are now also possible.

Free configurations: If you don't like any of the ready-made configurations, the new system can be customised to suit your requirements at no extra cost.

Furthermore, additional handles and additional weights have been provided for the user for more comfort during training. The new variable wall for hand grips offers the option of easily inserting the hooks into a grid in order to hang up all grip variants clearly and neatly, thus ensuring that they are organised and easy to find.

**MAXIMUM FLEXIBILITY,
UNLIMITED INDIVIDUALITY.
YOUR PERFECT
TRAINING SYSTEM!**
